PROFILE

- With a BSc (Hons) in Finance and Accounting and a background in customer service, I've developed strong communication skills and attention to detail. Having a coachable and ambitious mindset, I'm always eager to learn and grow in Data Science. As a motivated and curious individual, I'm determined to approach every project I work on with a positive attitude and strong work ethic.

EXPERIENCE

2023 **Data Science Bootcamp** HyperionDev

- 16 weeks program run by HyperionDev in partnership with Department for Education in UK.
- Completed projects within specified timelines, demonstrating attention to detail and achieving outstanding scores ranging from 94 to 100, accompanied by valuable feedback.
- Built great projects, such as a finance calculator (investment and home loan repayment) or NLP projects.

2022 - **Data Science Project in Finance** 2023 FTSE 100 Index Exploration

- Led end-to-end development of a data project in Python, showcasing great project management skills.
- Used consistent tenacity and critical thinking in addressing complicated database issues and demonstrated problem-solving skills in data analysis and model construction.

2019 - **Executive Driver** ongoing Uber Exec

- Utilised analytical thinking to strategise optimal routes, adapt to dynamic road conditions, and ensure passenger comfort and safety.
- Employed a collaborative approach to engage with clients, understand their preferences, and deliver personalised services, fostering customer loyalty.

2015 - **Assistant Manager** 2017 The Ships Photographer - Carnival UK

- Displayed effective cross-communication and teamwork in facilitating discussions around new ideas and providing stakeholder reports on team performance.
- Utilized effective leadership to understand and prioritise business goals and strategies, resulting in gained trust.
- Leveraged advanced equipment worth £30,000+, leading to a substantial positive impact on sales.

SELF-DEVELOPMENT

Online Courses:

Mimo App Apr 2023

- Completion of Python

Udemy Jun-Oct 2022

- Python for Data Science and Machine Learning Bootcamp
- The Complete Python Bootcamp From Zero to Hero

Self-Study Books:

- The Art of Statistics: Learning from Data (Pelican Books)
- The StatQuest Illustrated Guide To Machine Learning

Hackathon 2023 Event Attended

EDUCATION

Anglia Ruskin University

2017 - 2020 | BSc (Hons) in Finance and Accounting

TECHNICAL SKILLS

- Data Science in Python and SQL
- Object Oriented Programming
- Data wrangling | Data visualisation
- Machine Learning | Git/GitHub
- Natural Language Processing
- Cloud Computing Services: AWS

SOFT SKILLS

- Cross Communication
- Analytical and critical thinking
- Problem-solving | Ambitious
- Teamwork | Collaboration

ACHIEVEMENTS

Personal Accounting Project:

Data Analysis

- Using Power Bi to analyse and visualise Office for National Statistics data.
