

Website scheme:

1st Page:

Ideas:

1. Lusion.co

Logo

Title text kind of
about

audio
← Contact Menu

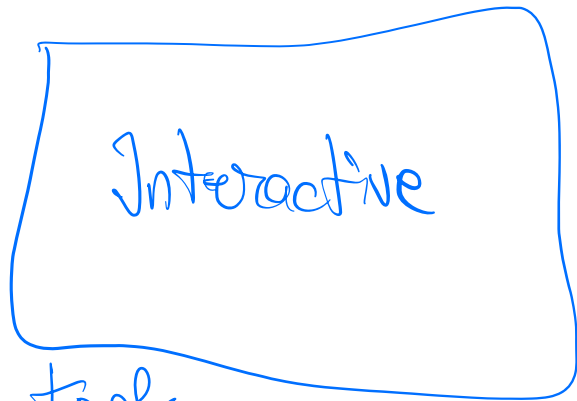

3D mouse interaction

Scroll to explore

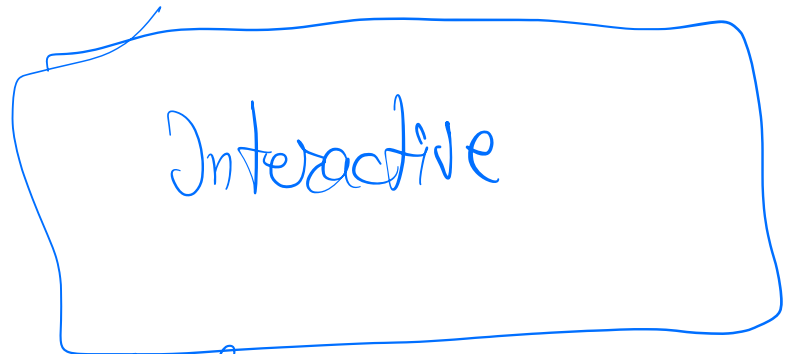

I can use scroll to take me to the
next page.

Page 2 scrolling:

Page 3 Featured work:

tools
→ Project 1

tools
Project 2

Page 4 : Academics { → education
→ certifications

- books and
disappear on scroll
etc

Page 5: Contact

you can use a QR code

Page

Contact me

hover with
mouse around
to find the
QR code.

QR code

Another idea is to click on the
site and change colour/theme.

Another idea is to finish the website after scrolling with a game

a click game where you
have to choose fruits or
snacks
✓ fruits ✓ snacks
✗ click ✗ click

I can also use an infinite
loop to scroll and see the
other pages.

About page:

I can use the website concept:

synthetic-humans.ai with scroll animation.
